

Business Start-Up Orientation

Learn more about starting a small business in Colorado

This webinar will provide an overview of the steps needed to launch a business including: legal structures, required licenses and forms, tax requirements, business planning, and financial considerations.

It is suggested that new businesses attend this course before pursuing individualized business counseling with the Northeast-East Central Colorado SBDC.

Note: This webinar has been structured as a lecture because of the amount of information provided. Attendees will not have the opportunity to converse with the presenter during the webinar. As a result, they are encouraged to write down their questions and schedule an appointment with a SBDC business counselor to further discuss.
